TRANSLATION

Claims

1. Web of a tufted floor covering, characterized in that it is provided with a back covering within which drainage openings are present.

2. Web of a tufted material according to Claim 1, with a base fabric consisting of plastic strips, a fiber fleece pinned thereon, as well as a nap consisting of plastic strips, characterized in that the base fabric has openings between the rows formed by the nap strips that are formed on pinning the fiber fleece, through which openings fibers of the fiber fleece that stick out below the base fabric are pressed, and that the lower ends of the nap strips located on the underside of the base fabric are coated with a coating material which, together with the lower ends of the nap strips, particularly forms ribbed protrusions passing in between the openings.

3. Web of a tufted floor covering according to Claim 1, with a nap formed by plastic strips and a base fabric that holds the nap, characterized in that the base fabric consists of a screen gauze whose openings are just large enough to allow the lower nap strips to be held fast therein, that the base fabric is equipped to be non-slip and that the lower nap strips are coated with a coating material which, together with these nap strips, particularly forms ribbed protrusions on the back end of the coating, which enclose the openings of the base fabric between them.

4. Web according to Claims 2 or 3, characterized in that the coating material is soft PVC.

5. Web according to Claim 3, characterized in that the screen gauze consists of synthetic fibers having an approximately circular cross-section.
